

## **Data Sheet**

Brinell Accessories

## Brinell Accessories

### V 1.0 System

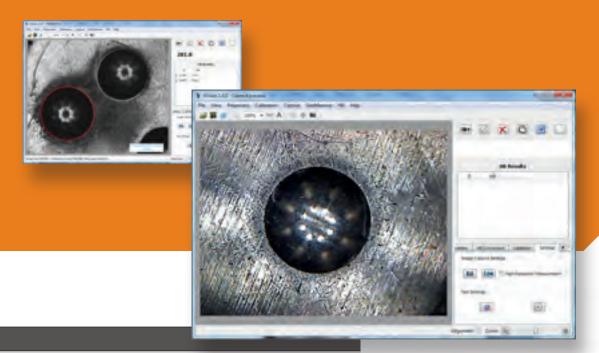

### V 1.0 System

### Main Function:

- 1. Basic function: include all functions of image processing and measurement system, such as image capture, calibration, image processing, geometric measurement, annotation, photo album management and fixed times print etc;
- Automatic measurement: Automatically capture the indentation measure the diameter and calculate the corresponding value of Brinell hardness;
- 3. Manual measurement: Manually measure the indentation, the system calculates the corresponding value of Brinell hardness;
- **4. Hardness conversion**: The system can convert the measured Brinell hardness value HB to other hardness value such as HV, HR etc;
- 5. Data statistics: The system can automatically calculate the average value, variance and other statistical values the hardness;
- 6. Standard exceeding alarm: Automatic mark the abnormal value, when the hardness exceeds the specified value, an alarm will appear;
- 7. Test report: Automatically generate the report in Word or Excel format, report templates can be modified by the user.
- 8. Easy to use: Click on the interface button or press the camera button to automatically complete all the work;
- **9. Strong noise resistance**: The advanced and reliable image recognition technology can handle the indentation recognition on the surface of complex samples, two automatic measurement modes to deal with difficult samples;
- 10. Automatic calibration: System provided with calibration function. With a calibration grid, the system can automatically implement full calibration for calibration data.

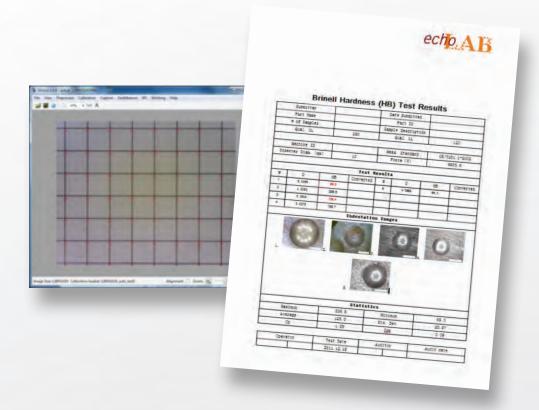

# Brinell Accessories

V 1.0 System

### **Standard Configuration:**

- 1. Computer (Hard disk: 500G, Memory: 2G, 19" LCD screen) 1 set
- 2. Ink jet printer 1 set
- 3. Portable camera device 1 set
- 4. USB softdog 1 pc
- 5. Measuring software 1 pc

## Brinell Accessories

**CCD Image Automatic Measuring System** 

### **Brinell CCD Image Automatic measuring System**

### Introduction:

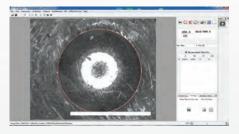

CCD Image automatic measuring system allow test performing through mouse click, and CCD camera for directly observe and measure the indentation on the display, test conditions setting, results clearly and conveniently managed and displayed. Automatic calculation of indentation depth, statistical calculations, conversions, curves, data managing and export as Word or Excel documents.

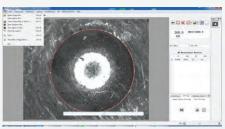

### **Main Functions:**

- 1. Basic function: include all functions of image processing and measurement system, such as image capture, calibration, image processing, geometric measurement, annotation, photo album management, etc;
- 2. Automatic measurement: Automatically capture the indentation, measure the diameter and calculate the corresponding value of Brinell hardness;
- 3. Hardness conversion: The system can convert the measured Brinell hardness value HB to other hardness scales such as HV. HR etc:
- 4. Data statistics: Automatic calculation of average value, variance and other statistical values;
- 5. Standard exceeding alarm: Automatic mark abnormal value, when the hardness exceeds the specified value, an alarm will appear;
- 6. Test report: Automatically generate the report in Word or Excel format, the report templates can be modified by the user.
- 7. Easy to use: Click on the interface button, press the camera button or press the run button to automatically complete all the steps;
- 8. Strong noise resistance: The advanced and reliable image recognition technology can handle the indentation recognition on the surface of complex samples, two automatic measurement modes to deal with difficult samples;
- **9. Automatic calibration**: System provided with calibration function. With a calibration grid, the system can automatically implement full calibration for calibration data.

### **Standard Configuration:**

- 1. Computer (Hard disk: 500G, Memory: 2G, 19" LCD screen) 1 set
- 2. Ink jet printer 1 set
- 3. CCD camera 1 set
- 4. USB softdog 1 pc
- 5. Measuring software 1 pc

## Brinell Accessories

LCD Video measuring device

### LCD Video measuring device

#### Main Function:

LCD Video measuring device is composed by video measuring device, 8" color LCD monitor and connections components. With this device, the indentation can be directly showed on the monitor.

The measurement is more accurate. Avoids visual fatigue and human-made error, increasing working efficiency.

### **Standard Configuration:**

- 1. 8" Color LCD monitor
- 2. Video measuring device
- 3. Video connection cable

## Brinell Accessories

### Indenters

| Code     | Description                            |       |
|----------|--|-------|
| BI-1     | Hard alloy steel ø 1mm ball indenter   | - 0 0 |
| BI-25    | Hard alloy steel ø 2,5mm ball indenter |       |
| BI-5     | Hard alloy steel ø 5mm ball indenter   |       |
| BI-10    | Hard alloy steel ø 10mm ball indenter  |       |
| BT-IB1   | ø 1mm Hard alloysteel ball             |       |
| BT-IB2.5 | ø 2.5mm hard alloy steel ball          |       |
| BT-IB5   | ø 5mm hard alloy steel ball            |       |
| BT-IB10  | ø 10mm hard alloy steel ball           |       |

### **Test tables**

| Code            | Description                        |  |  |
|-----------------|------------------------------------|--|--|
| BT-LTT200       | Large plane test table ø 200mm     |  |  |
| BT-LTT108       | Large plane test table ø 108mm     |  |  |
| BT-MTT60        | Middle sized testing table ø 60mm  |  |  |
| BT-VTT80        | V-Shaped test table ø 80mm         |  |  |
| BT-VTT40        | V-Shaped test table ø 40mm         |  |  |
| BT-CTT-XXXXXXXX | Customized standard testing tables | Available further customization for V-Shaped and Round-Shaped test table. The selectable table's diameter depends about the relative models. |  |

## **Additional options**

| Code   | Description                   |  |
|--------|-------------------------------|--|
| BT-APP | Additional printer paper roll |  |
| BT-WB  | Work bench                    |  |

### Hardness blocks

| Code           | Scale         | Range   |
|----------------|---------------|---------|
| HB-BW10/3000   | HBW 10/3000   | 180-650 |
| HB-BW10/1500   | HBW 10/1500   | 180-650 |
| HB-BW10/1000   | HBW 10/1000   | 90-450  |
| HB-BW10/500    | HBW 10/500    | 90-450  |
| HB-BW5/750     | HBW 5/750     | 180-650 |
| HB-BW5/250     | HBW 5/250     | 90-450  |
| HB-BW2.5/187.5 | HBW 2.5/187.5 | 180-650 |
| HB-BW2.5/62.5  | HBW 2.5/62.5  | 90-450  |
| HB-BW1/30      | HBW 1/30      | 150-250 |

Other hardness scales and ranges available on request
